

ALPA ELASTOMERS

MANUFACTURERS

**RUBBER EXTRUSIONS , MOLDED COMPONENTS,
RUBBER SHEET, GASKETS, "O" RING & OIL SEALS**

ABOUT COMPANY

SHREENATH GROUP was established in the Year 1998 at Mumbai, Maharashtra and is the brain child of our visionary Mr. J. M. SHAH. **SHREENATH RUBBER INDUSTRIES** has been at the forefront of business activity for the last 25+ years. **ALPA ELASTOMERS** a sister consion came into existence in 2012 at Vasai, Mumbai, Maharashtra. We been engaged in manufacturing of Rubber Components for the last many years. Alpa Elastomers manufacturers EPDM, NBR, VITON, Silicone, Natural Rubber, Neo Prene, Rubber Profiles and caters to the products requirements of the following industries: Automobiles, Constructions, Bus Body Builders, Aluminium Fabricators, Shipping, Railways, Engineering etc.

We offer our products to our valued customers at an affordable price and we timely introduce new beneficial schemes for our customers. We are congregated by an educated and well talented team of professionals who look after a number of assignments. Our team members are extremely proficient with the trade policies of the company. They carry our fair marketing techniques that help them take improvising decisions and necessary steps that are helpful in taking the organization to eminent heights.

With the experience of 35 years of our Director Mr. N. J. SHAH under his valuable guidance and constant motivation, we have been able carve a unique niche in the domestic & international markets. His brilliant management skills, vast industrial knowledge and experience have helped us in winning the trust of our worldwide clients.

We Alpa Elastomers are brain child of our Director Mr. N. J. SHAH, who started this company with the sole aim of providing a precision-engineering range of rubber profiles, seals, sheet and much more to our client. since then we have never looked back and have marched ahead in our endeavor whilst creating a huge market for our product in the industry. our company is also well supported by our infrastructure facility and our diligent team to manufacture our qualitative range of rubber products. over this years, of establishment, we have gained immense experience and expertise in this domain.

This has been possible because of our dexterous team who work in a coordinated environment to understand and deliver our products as per the clients specification & market trends. Our infrastructure,consisting of various units such as manufacturing, quality control,R&D and packaging units, facilitates us in offering both standard and customized rang to our clients. Thus, we have established ourselves as a one stop solution for our clients' requirements for various Rubber Products in India. Moreover ,under the leadership of Mr. A.N.SHAH, we have scaled R&D and our production capabilities to cater to the increasing demands of our Rubber Products.

We are well equipped with modern rubber processing equipments with very good technical expertise. We are one of the leading manufacturers and suppliers of a wide assortment of critical rubber components. These rubber products are widely used in electrical and automobile industry and are manufactured using premium grade materials like SBR, nitrile, neoprene, silicon, EPDM,and viton that are procured from certified vendors.

We can also customize our array, as per the specifications provided by clients. Our range is widely appreciated for its accurate dimension, sturdiness, longer functionality and high tolerance standards. our technical team is well equipped to handle all critical and innovative products.

RUBBER EXTRUSION PROFILE

We have gained vast industrial experience in the field of manufacturing and supplying an exclusive range of Extruded Rubber Profile. We have designed and developed our range as per the industry standards. Our range is accredited for their high strength, durability, reliability, corrosion resistant, and accurate dimensions. Owing to their outstanding features and unique attributes, these profiles are extensively demanded and appreciated among the clients

We manufacture a wide range of rubber strips in various shape & sizes ranging from width (2mm to 100mm) & thickness (1.5mm to 50mm or more) as per the specific requirements of our customers. These strips can be made from all types of rubber grades like Viton, Neoprene, Nitrile, EPDM & Natural rubber.

RUBBER GLAZING

Rubber Glazing is one of the important accessories used in the automobile industry as well as in other industries where glass works are permanently in function. The rubber beading generally is a strip of rubber used along the edges of glasses to provide them support such that the glasses could withstand the jerks and shocks. They are fastened to the windows of automobiles like cars, buses, trucks etc. They are also used as window seals, door seals in residence. The perfect complement to any window trim is rubber beading. The rubber beadings are designed to acquire the shape of the glasses.

RUBBER CORD

We offer wide array of tubing & rubber cords solid as well as sponge made from premium quality of material including Nitrile, Neoprene, EPDM and Viton Tubing. All the tubing & cords are tested for quality and performance. These products are available in variety of length, size and diameter as per the requirement of the customers.

SILICONE EXTRUSION

We offer Silicon Rubber Products. It has temperature resistance ability through an enormous range, from sub-Zero to extreme high, to be more precise from -1000C to 3000C. Even at these extreme temperatures, it retains its characteristics flexibility at lower temperatures and tensile strength at higher temperatures, though its overall tensile strength is relatively moderate, it makes up for it with its other features as offering good electric insulation, resistant to degradation by the effects of weather, ozone, sunlight and oxidation.

Manufactured by ASTM- Standard and custom profiles, Rubber tubing, Cords, various rubber door seals and sweeps-seals, E-seals-seals, Rectangles, U-channels and many other custom profiles. The Extrusions are supplied in translucent, transparent, and a wide variety off-color choices for many applications resistance to extreme temperatures and excellent sealing. Durometers range from 10 to 90 Shore A.

SHEETS

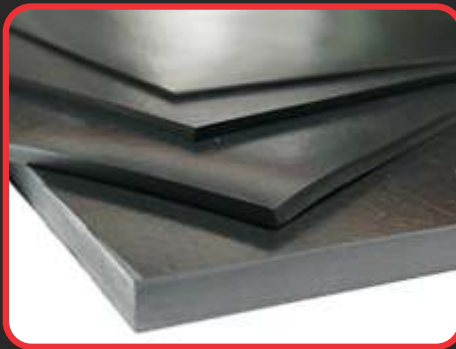

We manufacture a wide range of Rubber Sheets made from a variety of rubber grades like Natural, Silicon, EPDM, Nitrile, Butyl, Chloroprene and others. These sheets are available with or without canvas/nylon insertions. Depending upon the requirement of our customer, we manufacture the sheets in various sizes & thickness with both smooth and textured finishes.

Advantages & Applications :

Temperature resistance, electrical resistance, abrasion resistance, steam and other jointing gaskets and packing material, food grade sheets, hospital sheets, flame retardant sheets, insertion sheets, etc.

INDUSTRIES WE SERVE

Over the decade, we have had the opportunity to offer our services into a diverse range of industrial segments which are involved in production & manufacturing of a variety of significant products. Here is a list of the industries that we are serving:

- Electrical Control & Switchgear Mfrs
- Pharmaceutical Plants & equipment Mfrs
- Dairy, Sanitation & Filtration equipments Mfrs
- Rope-way, Railways, Monorail, Docks
- Glass equipments Mfrs
- Pumps, Valves & Cylinder Mfrs
- Earth-moving equipments (Forklifts, Cranes, Hoist) Mfrs
- Mechanical Seal Mfrs
- Chemical Seal Mfrs
- Motors, Gears & Power Trans equipments Mfrs
- Petrochemicals & Fertilizers plants
- Plastic Drums & Carboys Mfrs
- Electronics & Telecommunication plants
- Textile, Rayon & Dyeing equipments Mfrs
- Cement Manufacturing Plants
- Aluminum & Steel Plants
- Automobile & accessories Mfrs like C-TRACK, CLASSIQUE, CENTURY, AJANTA and many more....
